APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 19833, Certificate 7448 is issued subject to the terms and conditions imposed in said Permit 19833, Certificate 7448 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Permit 68302 and Permit 15607, Certificate 5113, shall not exceed 1,894.64 acre-feet seasonally.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A portion of the place of use of this permit is supplemental to surface waters under Rebel Creek Decree, Proofs O2664, O2665, O2666 and O2667. All surface water, 275.8 acre-feet must be used for irrigation prior to the use of any of the supplemental groundwater.

This permit is limited to the irrigation of 181.2 acres within the described place of use, and this permit is seasonal and is limited to March 15 to November 15 of each year.

The point of diversion and place of use is as described under items 5 & 7 respectively on the submitted application to support this permit.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.7985 cubic feet per second, but not to exceed 724.8 acre-feet seasonally, and not to exceed a seasonal duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 31, 2009

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

May 31, 2012

Map in support of proof of beneficial use shall be filed on or before:
